Election/Restriction

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species	I	-	Figures 1a-1e
Species	II	-	Figures 2a and 2b
Species	III	-	Figures 3a and 3b
Species	IV	-	Figures 4a and 4b
Species	V	-	Figures 5a and 5b
Species	VI	-	Figures 6a-6d
Species	VII	-	Figures 7b-7e
Species	VIII	-	Figures 8b-8g
Species	IX	-	Figures 9b-9e and 11b-11e
Species	X	-	Figures 10b-10e
Species	XI	-	Figures 12b-12e
Species	XII	-	Figures 13b-13d
Species	XIII	-	Figures 14a and 14e
Species	XIV	-	Figures 15a, 15b and 17a-18b

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims

subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: Claims 1, 60-63, 124-128, 132-135, 138-142, 159 and 163.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Each embodiment has a specific tubular configuration and/or thread arrangement constituting a special technical feature.

A telephone call was made to Randall C. Brown on 31 March 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
